

DAILY NEVADA STATE JOURNAL.

VOL. LVI.

RENO, NEVADA, SATURDAY MORNING, AUGUST 24, 1901.

NO. 21.

MORE CLAIMS ARE FOUND

Mining Locations That Have Been Made Recently.

The following recently discovered mining claims have been placed on record since August 1st:

Horse Shoe in Wedekind district by W. H. Merkle and C. S. Mullins.

Jackson in Steamboat district by V. L. Hopkins.

Ivy in Steamboat district by T. F. Ware.

Pinrock, Steamboat district by Geo. L. Thompson and George W. Fray.

Knoll in Steamboat district by A. J. Pettigrew.

Madison in Steamboat district by A. J. Pettigrew.

King Albert by J. R. Redman in Wedekind district.

King Richard in Wedekind district by C. A. Richardson.

Noda in White Horse district by Sidney J. Ash.

Monticelli in Wedekind district by J. L. Simpson and W. J. Lynch.

Spring in Wedekind district by D. W. Gault.

Little Bell in Peavine district by W. E. McKay and C. J. Frisch.

Crystal in Steamboat by Mrs. J. R. Jewell, Miss I. M. Pettigrew and Mrs. M. J. Danvers.

Prosper Spring in Wedekind district by J. R. Sullivan.

Emerald in Steamboat district by Thomas F. Ware.

Bumble Bee in White Horse by Jay Aaron and Wm. Crowley.

Rose Bud in White Horse by Jay Aaron, John A. Borland, Ed. Taylor and Wm. Crowley.

Snow Ball in White Horse by Jay Aaron.

Alpen Floy in White Horse by Jay Aaron, Samuel Kuhn and W. E. Whitman.

Victor in White Horse by J. C. Ruppert, John Hamilton and Jay Aaron.

Redemption in White Horse by Sidney J. Ash.

King Solomon in Wedekind by R. H. Kinney.

Mammoth in Wedekind by A. E. Murdoch, C. A. Richardson and J. R. Redman.

John S. in Wedekind by Henry Chester and John Sparks.

Grand View in Wedekind by T. C. Drandon and George Ayres.

Wild Goose in Steamboat by Peter Burke and Antonio Rebert.

Sunset in Peavine by James Morris, John Hogan and Lawrence Morgan.

Maud S. in Wedekind by Wm. M. Murdoch.

Mad in Wedekind by J. A. Altken and Thomas Litch.

New Drill in Wedekind by S. W. Fortous, F. M. Boughton and Jas. Stenaway.

THE MAGISTRATE'S MORNING SEANCE

Several Offenders Handed Packages—His Honor Gets a Big Disgust on.

His Honor Justice Jedekiah Linn looked bright and chipper yesterday morning when he entered the police court, donned the ermine and partook of his matutinal pinch of snuff.

There was plenty to do and he set about doing it in jig time so that he could take his chair out on the front porch before the sun worked around that way.

Alas for his hopes. They were all off when the attorneys began to wrangle over the "Kid" Lewis case.

The Judge's eyes had a far-away look in them as he elevated his feet and softly quoted a couplet from Maud Muller:

"The doubtful balance of right and wrong
And weary lawyers with endless tongue."

The "Kid" is charged with picking Mike Davitt's pocket and would have been given his medicine ere this if the said Mike Davitt could be found but he seems to have absented himself without leaving his address.

Lewis was remanded to the tender mercies of his legal guardians until Monday. During the interim an effort will be made to find Mike.

James Enklisch was handed a five days' sentence. The defendant copped \$2.50 from Sam Allen over at the Dewey saloon while the latter was counting his money on the bar.

Jack Parker got twenty days dose in addition to a broken head. Jack was promenading up street the other day insulting women. He used vile language until he ran afoul of Kid Brown, acting Chief of Police. Brown attempted to arrest Parker, but the latter sized up the officer and swore he would be eternally blessed if he would be taken in by such an undersized cop. This awoke Brown's Dutch and he jumped astride of Parker's neck and beat the stuffing out of him.

The penalties continued to increase in arithmetical progression. The next victim was John Duffy. He got the small sun of thirty days. This fellow was also insulting women. He got more than Parker, because he escaped getting his head cracked.

MINING IN THIS STATE

Culled News of Nevadas' Most Important Industry.

The Tuscarora Miners' Union has purchased the stone building at the foot of Weed street at that place and propose to remodel it into a meeting hall. The price paid was \$230.

The Miners' Union has appointed John Snow a committee to circulate a petition asking Congress to extend the provisions of the Chinese exclusion act. So far Mr. Snow has met with gratifying success in the matter of signers and he hopes to get the signature of every resident of Storey county.—Virginia Enterprise.

J. H. Bacon, secretary and treasurer of the Elko Coal Company, left for Salt Lake last night. He spent yesterday at the mine and was highly elated over the prospects. Another vein of coal 28 inches thick was uncovered yesterday by the incline. This vein carries 22 inches of coal of good quality, says the Independent.

Drifting will be done on the vein to determine its extent. Owing to the bad air, work in the incline will stop until the connection is made between the 130 foot level of the incline and the old workings. When this is done, sink will be renewed and prosecuted vigorously.

The prospecting work will hereafter be under the direct management of Mr. Bacon and will be done by contract.

Mr. Merritt, an oil expert, visited the mine yesterday and was well pleased

with what he saw. A sand, which is said to be an indication of oil has been found in the incline. Mr. Merritt considered this sand a good indication of finding oil at a greater depth. If his judgment should prove correct, Elko may yet have a boom.

The Smelter Has Arrived.

The new smelter for the Vulcan Smelting and Refining Company arrived yesterday and is at the freight house. It will be set up a short distance east of Reno and will be in operation before the fair opens.

Yesterday Mr. King of the Vulcan Company expressed his opinion that there would be no difficulty obtaining ore in this vicinity to keep a good sized smelter running steadily.

He seems very favorably impressed with this city and its commercial and mining outlook. He said: "In the past eight months I have traveled from Guadalupe, Mexico, to Vancouver, British Columbia, and from my observations I think that Reno has a better future than any other inland town that I have visited."

Their Farewell Reception.

At the Volunteer Mission Hall, 96 Virginia street, an ice cream social will be given by the friends of Captain Watson and wife, Saturday evening, August 24th. They go to Oakland for a few days rest, before going to their new appointment at Los Angeles, Cal.

All friends are invited to attend to bid them good-bye and wish them a safe journey to their new home.

SOCIAL AND PERSONAL

Items About People Who Travel to and Fro.

N. C. Prater is down from the Comstock.

Dan Godfrey is a visitor from Gardnerville.

C. T. Bliss came down from Hobart Mills yesterday.

A. G. Fitzgerald of Carson is a guest at the Riverside.

Grant Pyle, the cattle buyer, is a guest at the Palace.

P. F. Gleeson of Truckee is paying Reno a flying visit.

Arthur Raycraft came down from Carson last evening.

Alex Wunsmore came down from the Comstock yesterday.

Mr. Royer of Silver City is spending a few days in this city.

Mrs. Crampton of this city is visiting Mrs. Somers in Virginia.

Dr. Becker of the Empire Mining Company left last night for San Francisco.

Mrs. Jay Clemons and daughter have arrived from an outing at Independence lake.

Mrs. W. D. R. Graham and children will return today from an extended visit to Quincy.

Mrs. J. H. McCormack and daughter have arrived from a visit to Tahoe and Independence lakes.

A. B. Lemmon, Jr., has returned from Antelope Valley, where he inspected mining properties.

President Page of the Vulcan Smelting and Refining Company is expected up from San Francisco the beginning of the week.

OUR MOTTO

To our customers is to always give full value for your money, honest and courteous treatment—one price to all, and that the lowest consistent with good business principles.

We welcome you to our store and will be pleased at all times to show our goods whether you buy or not. Yours for trade,

NOVELTY DRY GOODS STORE.

NEWS OF THE DAY

Telegraphed from All Quarters.

PREPARING FOR WAR

The Chinese Embroglio—Preparing to Open More Steel Mills.

Preparing for War.

[Special to The Journal.]

BOGATA, Colombia, Aug. 23—A decree issued today admits that war is near, and authorizes the Governors of the States to appropriate military supplies, make forced loans and take other steps necessary to prepare the army for field service. A decree states that the Government has been forced into this position against its will.

China is Arming.

[Special to The Journal.]

PEKIN, Aug. 23—China's failure to sign the peace agreement is causing some anxiety here. Large supplies of arms and ammunition are being imported in spite of the compact to the contrary.

Forcing the Bear.

[Special to The Journal.]

LONDON, Aug. 23—It is reported in a dispatch from Chefoo that England and the United States plan to force Russia to evacuate New Chwang.

The Steel Strike.

[Special to The Journal.]

PITTSBURG, Pa., Aug. 23—There was no change in the steel strike today. The trusts are preparing to put more plants in operation.

Hays' Successor Named.

[Special to The Journal.]

CHICAGO, Aug. 23—It is stated that J. T. Harghan has been named to succeed President C. M. Hays of the Southern Pacific.

TELEGRAPHIC FLASHES

France has sent her ultimatum to Turkey. Only a brief time is given in which to comply with the demands made.

A riot occurred yesterday between union workers and non-union people who succeeded them in a Philadelphia silk mill.

J. W. Lyall, a wealthy cotton manufacturer, died suddenly in New York yesterday.

Collinsville, Alabama, was wrecked by a cloudburst yesterday.

The Spokane, Washington, Indian reservation will shortly be opened to mineral locations.

A conference of labor leaders was held in Pittsburgh yesterday. It is possible that a general strike will be ordered.

Ready for the Term to Begin.

The members of the faculty of the University of Nevada have all returned from their vacation trips and are ready for work. The students are beginning to arrive and lights are glimmering from the windows of Lincoln Hall and the Girls' Cottage, which for months were in darkness.

Since the arrival of the young ladies Dick Tobin's pay as matron of the Cottage has been cut off. He threatens to resign his position in favor of Mrs. Blume, his predecessor, who expects to return today from her vacation trip.

Sierras Will Be Pierced.

The longest railroad tunnel in the United States and one that will be numbered among the four longest in the world, will be built through the Sierra Nevada mountains of California. If the present plans of E. H. Harriman are carried out, says the San Francisco Chronicle.

Chief Engineer Hood has sent out a corps of fifteen men to make preliminary surveys, and their work is expected to be completed in six months. The tunnel project, which will involve an outlay of from \$3,000,000 to \$5,000,000, contemplates the boring of a hole 27,000 feet, or something over five miles in length, through the heart of the Sierras. Besides saving a climb of 1600 feet the tunnel will shorten the road about seven miles, and is expected to effect a great saving in operating expenses.

It is stated that with this tunnel built and the other plans of the company for the straightening of curves and reducing of grades in Nevada and Utah completed, passenger trains could be run between San Francisco and Chicago easily in two and a half days. This means an average speed over the whole distance of not more than forty miles an hour.

TERSE AND TO THE POINT

Little Bits of Items, but Still Worthy of Mention.

The Indians report a heavy crop of pine nuts.

Today is law and motion day in the District Court. Judge Currier will preside.

A cape has been found. The owner can have the same by calling at this office.

Yesterday the J. R. Bradley Company received another carload of Studebaker wagons.

William H. Matthews and May Powell, both of San Francisco were married in this city yesterday.

A meeting of the teachers of the Reno public schools has been called by Principal Bray for 2 o'clock this afternoon in the high school building.

A petition was filed yesterday by Mrs. Rice to permit her to carry on the restaurant business in this city as a "sole trader." Several days ago her husband left town, turning his property over to her.

W. Fred Hassell, the man who worked on his fraternal friends last spring, will be set free tomorrow or next day. He will be remembered to the tune of various amounts in this neck of the woods.

I. N. Bakesess and George Pierce have returned from a hunting expedition to Grizzly Valley and other northern points. They allege that they slaughtered two large bears, but that the carcasses were stolen by coyotes.

PRIDE RUINS MANY EYES.

Why do so many complain of their eyes, simply because they need glasses? In many cases pride keeps one from wearing them. Let pride go and save your eyes by going to Golden's jewelry store where you will find the only graduate optician in the State.

NOTICE—MEMBERS OF RENO WHEELMEN CLUB.

There will be a big watermelon run Sunday, August 25th, to Laughton's Springs, starting at 1:30 p. m. from the hall.

All the members invited to come and fill up on melon.

RACING BOARD, By Merston.

aug23t2

CHEAP RATES FOR RENO'S VISITORS

Excursion Rates on All Roads—No Fees to Be Collected From Exhibitors.

As some misunderstanding seems to exist, The Journal will state that there will be absolutely no entrance fees charged for exhibits in the pavilion at the State Fair grounds.

Superintendent Shane is having signs painted on tin, bearing the name of each owner of the individual stalls at the fair ground. The sign will be attached to each shed that owners who leave their teams there during the races will not find their sheds occupied by others. Superintendent Shane will have these affixed to the shed for fifty cents each, the amount charged for the material and work.

There will be low rates to the State Fair. The Southern Pacific will charge one fare and a fifth from all parts of Nevada and California. The same rate will be given on the Nevada-California-Oregon line. The Virginia & Truckee people have also volunteered cheap rates, but the amount of concession has not yet been fixed.

The Wedekind-Bell Litigation.

The case of Bell vs. Wedekind and that of Wedekind vs. Bell were both argued before Judge Hawley in the United States Circuit Court in Carson and submitted. Decisions will be given in a few days.

Mr. Wedekind's attorneys asked that the cases pending be dismissed on the grounds, as they believed, that the circuit court has no jurisdiction in this matter.

Drunken Hobos Plentiful.

The drunken hobo element is growing very numerous. Last night the officers whacked six sidewalk sleepers with their sticks and made them move on. During the day they were compelled to use the same method upon three others. The jail is chock-a-block and the calaboose is three to a bed. Hence no arrests of the drunks were made for want of any place to keep them.

ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

Mr. Wiley of Sulphur Springs has purchased 103 head of cattle from Mr. Frey of Genoa.

M. J. Murphy, Deputy Sheriff of Lander county, and Miss Katherine A. Laughlin, were married at Austin Thursday.

Another big washout occurred in Hope Valley last week. The company operating at the Blue Lakes is kept busy repairing the roads.

The Carson Appeal says that on the Winnie ranch in Eagle Valley a good crop of grain was raised this season without artificial irrigation.

About thirty men in the employ of the Standard Electric Company at Blue Lakes went on a strike Monday for higher wages and were discharged.

A man named G. S. Bates, who claimed to be traveling for a merchant tailoring establishment, is being sought by indignant Battle Mountain people whom he swindled. Bates obtained a large number of orders, collected a good many dollars on account and skipped out.

Warrants for the arrest of William Ashton, resident engineer of the Oregon Short Line; F. M. Baird and John Flynn, also of the same company, were issued out of the District Court for forcibly taking possession of the grade of the San Pedro, Los Angeles & Salt Lake Railroad upon a tract of land bought by said company from Eliza Culverwell and situated at Calientes.—Fleche Record.

PARSEE, THE PROSPECTOR.

Tells How It Feels to Be Victim of "La Belle Passion."

Editor Journal: As I am about to enter the blissful state of matrimony I have made considerable study of the proposition in order to be posted on the formation. My reading and observation have taught me so much about the dips, spurs and angles of connubial life that I feel it my duty to inform the readers of your paper all about it.

You will notice that since I located the claim of Affection I have ceased my audacious efforts to reform the universe. I have deputized Doctor Kerfat to do my kicking.

The world has since the time I truck this lead taken on a rose quartz tinge. I tell my friend Aleck Tricity that I used to think him foolish for doing his assessment work for years in his matrimonial claim when he might have been free to roam the hills like myself and live the care free prospector's life. But my feelings have since changed.

I know now that he means what he says when he declares that paying bullion tax on that kid if his is one of the happiest acts of his life.

When I started in to prospect the ad of Love I found it as blind a formation as the Wedekind dike. Had never struck it before, but now I can tell its oxide of iron from its yellow chloride of silver by simply hefting it. In my claim its all caliche of silver shining way up in gold. I'm sure its all right for I call three evenings in the week and heft it. There is no base in the ore and I stand guard over it all the time to keep Dr. Kerfat and those other claim jumpers at a distance.

PARSEE, The Prospector.

Burning of a Transformer.

Last evening shortly after the electric lights were turned on the large transformer at the intersection of Second and Virginia streets took fire. The "juice" turned in its own alarm, for a multitude of discordant shrieks came from the wooden box in which the apparatus is encased. Electrician Askin put out the fire with a few buckets of water and half an hour later the lights were on again. The spectacle of the blaze on the top of the pole caused a crowd of a couple of hundred people to collect.

SPECIAL THIS WEEK.

Alarm clocks, guaranteed for one year for 55 cents at Frank Golden's jewelry store, corner Second and Virginia streets.

YOU CAN BUY

Nice new up-to-date plan on easy terms. \$25 cash and \$10 a month installments. A new stock just arrived. Fully guaranteed.

Advance in Freight Rates.

The Journal has been in formed that rates on sheep in carload lots from points along the N.C.O. to Missouri river points have been advanced \$60.

This will prove a severe blow to the sheep owners of Nevada, if it does not result in the bankruptcy of many who are extensively engaged in this industry.

It means an increased expense of several thousand dollars per annum to many of our shippers.

One result of the raise will be to force all sheep and lambs into California markets, which will be overstocked and a drop in prices will result, which will affect the markets all over the United States.

The reason for this advance is not known to the shippers. They do not

Last Call! WAY DOWN LOW PRICES...

THESE prices would bankrupt any house but ours: Note prices below:

FIRED OUT.

AGAIN the expected has happened. The Democratic executive committee of South Carolina has expelled Senator John L. McLaurin from the party—or "fired him out," as such expulsory process is designated in the modern vernacular. McLaurin's downfall was attributable to two causes. He had an idea that he could advocate all of the cardinal principles of the Republican party and still be regarded as a Democrat and so recognized by honest and sensible men.

The idea was preposterous, but he might have been permitted to silently and gently drop into obscurity, and escape being so harshly dealt with, but for the booming he received from the New York Sun and other Republican papers which shouted their approval, with the accompanying declaration that he was Republicanizing the South. Praise from such sources is fatal to a Democrat, as poor McLaurin has discovered to his cost. As a matter of fact, the South Carolina Senator never started out to make the South Republican, and had no more idea of leading a Republican crusade than he had of flying to the moon. Neither did he intend to leave the Democratic party. He had an idea that he could truckle to the administration, and so control the federal patronage in the Palmetto State, as to strengthen his position in the party there as to secure his re-election. But he has awakened from his delusion. He is as dead as a mackerel, and a thinly salted one at that. It is to be regretted that he entered upon such a suicidal course, for he possessed ability which would have enabled him to realize the dream of his ambition—the leadership of his party in his native State. He has learned the lesson of the folly of attempting to elevate himself in the Democratic party by conciliation of its enemies, even with the aid of the federal pap which the latter had to bestow. But he learned the lesson too late, and when he retires from the Senate, it will be to be heard of—nevermore.

PROPERTY AND EDUCATIONAL TESTS.

THE Constitutional Convention in Alabama has adopted a uniform system of suffrage which, although objectionable in some respects, at least, does not discriminate against color. If the constitution is ratified a general law will prevail on the subject of the elective franchise. There is a property and also an educational qualification not for the blacks alone but for all voters. The property qualification is that the voter must pay taxes on \$300, and the educational, ability to read and write. While the property test is in our opinion un-American and in non-conformity with our Republican institutions, the educational qualification, if objectionable at all, is less so than that which measures a man's intelligence by his bank account or other worldly possessions. On the whole, however, the new regulation is favorable to the colored race, and manifests upon the part of the whites a disposition to treat them fairly and so far as possible, to remove the color line at the polls, and as a natural sequence, from the political government of the state. The race stigma is removed at once from politics and is an inspiration to the pride of both illiterate whites and blacks, which will prompt many of both to qualify themselves for the exercise of the greatest privilege of American citizenship—which incentive would be lost in the case of universal suffrage. The proposal to make the payment of a poll tax a qualification was wisely rejected, as the experience of four years of such a law in Nevada will emphatically prove. During the election years of that time, nearly one half of the revenue from poll taxes, was paid by the county central committees of the two political parties, the money coming from the candidates, on the several tickets, who to the knowledge of the writer, in some instances paid the tax for men of capital to whom some of the contributing candidates were paying interest on money loaned to them. The property qualification is at least less objectionable than the poll tax proposition, but both should have been ignored, leaving the educational clause the only mark of distinction or discrimination.

A SNAKEY EXPERIMENT.

PROFESSOR DUKSON of Yale college, while on a visit to Colorado, succeeded in demonstrating, after repeated experiments, that two snakes could be welded together so that the two bodies would unite and continue to grow as one. He sewed the tail of an adder to the fore part of a rattlesnake, and in twenty-four hours the rattler was swishing the silent tail of the adder as though it had belonged to him all his life.

With this successful experiment there is no telling to what extent the system of animal grafting may be carried. It may be extended even to the human race, and robust condemned criminals made to contribute to the wants of armless and legless persons by furnishing the lacking limbs for which the original possessor will have no further use, while the reconstructed individuals may become the champion pugilists and pedestrians of the age. It is hard to realize some of the achievements of science, and perhaps still harder to conceive its

limits. Who can foretell the results of the professor's snake experiment in Colorado? It may be a complete revolution in the entire system of animal life, and even to the long sought solution of the problem of restoring the hirsute appendage to the barren caputs of the bald.

AMONG the questions to be submitted to the voters of Pennsylvania at this year's election is the constitutional provision authorizing the use of voting machines in that state. At the present time the constitution authorizes the use of ballots only. This, however, has not prevented machine politics in the Keystone State, nor the use of human machines in the manipulation of ballot box and other devices for the perpetuation of Quaysim in that long afflicted commonwealth.

COME to think of it, our Nevada Republican contemporaries are not so much to blame for their persistency in naming candidates for State officers for the Democratic and Silver parties. The poor fellows realize that they haven't the ghost of a chance to elect any of their own, and should not be begrudged the pleasure of the imagination that they are taking a part in the politics of the State.

THE apex or continuous ledge theory is the only one that is recognized directly by the United States mining laws. The perpendicular theory has arisen through the undefined rights of owners of land supposed to be non-mineral and which were located and patented for other purposes.

THE Democratic State convention in Iowa endorsed silver and the Kansas City platform in its entirety.

ADMIRAL DEWEY has shown his wisdom in concluding that he needed at least a month's stay in a New England resort to prepare him for the ordeal of chairman of the Schley court of inquiry.

PRESS COMMENT.

By the law an accused person is considered innocent until he is proved guilty, and by his attorney until his money gives out.—Silver State.

Speaking of Luzon, General MacArthur is quoted as saying: "You may say the whole country is pacified, but not tranquilized." In other words, the war is over, but the fighting is still going on.—Salt Lake Herald.

A Yale professor is out in Colorado spending time by demonstrating that the tail of an adder may be grafted onto a rattlesnake. Wouldn't it be more profitable for the professor to try to discover some means of exterminating potato bugs.—Chicago Record-Herald.

If Convict Winters ever finds himself obliged to sue for the money he says was promised him by the men he robbed, the allegations of the complaint ought to make interesting reading.—S. F. Bulletin.

One can scarcely blame France for getting angry—and yet it may be suggested, apropos of that little bill of ours, that if war should have been declared against Turkey every time the Sultan broke a promise, we would have had Constantinople long ago.—S. F. Bulletin.

TOWN ORDINANCE.

Ordering the Paying of Certain Streets.

[Adopted July 18, 1901.]

Whereas, it appears to the satisfaction of this Board that notice of the hearing of the petition of T. K. Stewart and others for the grading and paving of Commercial Row from Center to Sierra street, Virginia street from Commercial Row to the Iron Bridge over the Truckee River, and Second street from Virginia to Sierra street in the Town of Reno, and the adoption of plans and specifications by publication as required by the order of this Board.

And whereas said matter coming on to be heard at the time mentioned in said notice, parties interested therein appeared and the proof and evidence that said plans and specifications are suitable and proper, it is ordered that said plans and specifications for the grading and paving of said portions of said streets be and the same are adopted as now on file with the Clerk of this Board except as to the curbing and that the same be recorded.

And whereas it further appears that it is advisable and to the public interest and benefit, that Commercial Row from Center street to Sierra street in said town be graded and paved according to said plans and specifications. It is ordered that the last above mentioned portion of said streets be graded and paved according to Class A of said plans and specifications as now adopted. That thirty days notice of the letting of contracts to grade and pave said portions of said streets according to said plans and specifications be given by advertisement in the Reno Journal, a newspaper published at Reno, Nevada, that such contract will be let to the lowest responsible bidder who will give satisfactory guarantee to keep the same in repair five years subject to the right of any property owner fronting on said street to make said improvement according to Class A of said plans and specifications in front of his property by private contract to be approved by this Board.

It is further ordered that the cost of grading and paving that portion of said streets fronting and abutting private property be paid by the owners of the abutting property according to the number of feet fronting or abutting on said street, improvement, and that the cost thereof be assessed accordingly against said property, and be a tax and lien thereon, and that the cost of grading and paving all street and alley crossings and intersections included within that portion of said streets hereby ordered to be graded and paved, be paid by and out of the public funds.

By order of the Board of County Commissioners acting for the benefit of the Town of Reno.

W. A. FOGG, Clerk.

W. H. A. FIFE, District Atty.

THE ONLY IMPEDIMENT TO GROWTH AND PROGRESS

WITH all its advancement made along other lines in the past few years, Reno has not added a single manufactory of any consequence to its list of industries and enterprises. The commercial interests of the town have been extended; building operations have been booming; mining has begun to be esteemed an industry of consequence; there has been an influx of people and municipal improvements are under way and others are contemplated.

It is being asked: "Why are not manufactories located here?" The question is easy of answer. It is true that there is raw material in abundance and cheap. The forests of Plumas are now tapped by a railroad leading out of this town. The logs could be cheaply and quickly transported here and worked up into fruit boxes, building material and furniture.

This city is a center for a great wool growing country. It would seem that the wool could be scourged here and woven into fabrics. There are vast deposits of kaolin and infusorial earths here that may be located and acquired without cost. These substances can be wrought into materials of use and value.

Although Nevada is a great cattle raising state there is not a tannery within its borders. Shipments of hides are made constantly. No reason seems to exist why this material could not be worked up into leather and then into shoes. It is true that there are no forests of tanbark woods growing here, but it has been demonstrated that the tannic acid found so plentifully in the Nevada sagebrush can be extracted by a very simple process and is of superior quality for tanning fancy leathers.

Wide croppings of high grade iron ore are to be found here. The time for fluxing is also plentiful. The city seems favorably situated for the development of the iron and steel industry, especially since the discovery of coking coal in this state.

This list might be carried on indefinitely in order to prove that the raw material for the support

of manufacturing industries are at hand.

In addition, and this is the most vital reason why manufacturing enterprises could be carried on here at low cost, the Truckee river could be harnessed and made to furnish unlimited power to be transformed into electrical energy.

There is one cause, and only one, that militates against Reno becoming a manufacturing center. The matter of transportation rates is and has been a bar to Reno's progress along this line.

There are lines of railroad reaching from this town to the four principal parts of the compass. Scattered along these lines is a local market and the main transcontinental line could carry the surplus to distant cities.

But the rates! Ah, the rates! No complaint is here entered against the Southern Pacific company on the grounds of invidious distinction favoring other points along its line of less importance than this city. This article is not written in the spirit of carping criticism. There is no intention on the part of this paper to charge the company with the intent to throttle the town on account of an old grudge. There is no animosity felt toward the company.

But it must be said that the Southern Pacific is ignorant, intentionally or otherwise, of the great traffic that could be built up between Reno and points in California and the east by granting terminal rates, or even making concessions that would place this city on a more even footing with other towns of similar shipping importance.

It is the duty of the people of Reno to prepare statistics or estimates on the amount of additional traffic that would be given the road under a plan of rate concessions or establishing a terminal point. It will be argued that this plan has been tried. Perhaps it has, but what is worth having is worth asking for more than once. Holy Writ tells of a magistrate who granted a request through dint of frequent importuning on the part of the petitioner. In this instance a concession would be of mutual advantage.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its action on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the California Fig Syrup Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

ANOTHER VISIT TO THE PLUMAS PINES

A Dollar Excursion Will Be Run to Clairville Next Sunday Morning.

The N-C-O. Ry. will run another of its excursions to popular Plumas Plumas county on Sunday next. This excursion will doubtless be the most successful one of the season, as an extra large attendance is already assured. The train will leave N-C-O. depot at 8 a. m., and will stop to let off passengers at Grizzly Creek and at a point 2 miles east of Clairville, for the benefit of passengers who desire to spend the day in the woods. As there are many interesting scenes in this locality, the Kodak fiend will be in his glory, and fishermen and sportsmen will find ample opportunity to try their luck with rod and gun.

Returning, train will leave Clairville at 3:30 p. m., and will take on passengers who got off at Grizzly Creek and in the pine woods east of Clairville, arriving in Reno at 7 p. m. The usual \$1 round trip fare will be in effect, and doubtless many will take advantage of the extremely low rate. First-class hotel accommodations at Clairville.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

These pianos are all fully guaranteed and have the latest improved action and are the style upright. No one on earth sells better pianos or better-toned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street, C. J. Brookins' store.

ASTONISHED THE EDITOR.

Editor S. A. Brown, of Bennettville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50 cents at S. J. Hodgkinson's drug store.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and seamen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at S. J. Hodgkinson.

Sold by all dealers in all civilized countries.

THEIR SECRET IS OUT.

All Sadleville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time, endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also a severe attack of Whooping Cough." It positively cures Coughs, Colds, La Grippe, Bronchitis, all Throat and Lung troubles. Guaranteed bottles 50 cents and \$1. Trial bottles at S. J. Hodgkinson drug store.

THE ARTIST TAILOR.

W. Schur, the artist tailor, began business in Reno in a small way a year and a half ago and has built up a splendid trade. He is a tailor for many of the most prominent people in this city. His work always gives satisfaction. Mr. Schur makes a specialty of ladies' tailoring. He worked six years at this business in Paris. 214

WHAT A TALE IT TELLS.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin—it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25 cents at S. J. Hodgkinson drug store.

TO SAVE HER CHILD

From frightful disfigurement Mrs. Nannie Gallagher, of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, scalds and Piles. 25 cents. Cure guaranteed by S. J. Hodgkinson, druggist.

CO-OP. STOCK-TAKING SALE.

LIGHT LET ON FAMOUS TRAIN ROBBERY CASE

The Trial of the Case of Kelly Versus Kelly Results in a Big Sensation.

The case of Hugh Kelly against his brother, J. Kelly, for a division of partnership property represented in the firm of J. Kelly & Co. brought out a large crowd of spectators in the District Court at Carson yesterday morning in anticipation of the long promised sensation.

The news says the complaint set up that Hugh Kelly was and is an equal partner with Joe Kelly; that he put in an equal sum of money. Hugh Kelly claims that he has practically been thrown out of the business; that he has not been allowed to have access to the books, etc. The value of the property is placed at \$10,000 in the complaint. The answer is a sweeping denial of all the allegations of the complaint.

Attorney Chartz of counsel for defendant made the opening statement in which he said that they would prove that Hugh Kelly did not even know the cost mark on the goods in the store and could not read it. Attorney Torreyson, for the defense, argued that the jury would not determine the question of partnership, but that series of questions would be submitted to the jury, and the Court would say whether or no a partnership exists, being a pure question of law.

Hugh Kelly, the plaintiff, the first witness, testified that in 1895 the witness, Joe Kelly, Henry Bath and Ernest Miner opened the King street store. Counsel had several wrangles over the interest of Bath and Miner and finally all matters relating to them were finally left out. Hugh put \$800 in the business and Joe put in \$700. Hugh knew nothing of the business of the firm, he did the heavy work while Joe kept the books and did the business of the firm. The brothers disagreed about the conduct of the witness outside of the store which led to a break and plaintiff asked for his share of the business. Joe Kelly told him he should have his share any time he wanted it. When witness demanded he \$800 he had put in, Joe denied that he witness had put anything in the business, but finally made a proposition to pay witness \$400 on condition that he would go away.

On cross-examination considerable talk was had about a "sealed deposition" which witness had made some months ago. Hugh was told by Joe where he would find a certain sum of money and if he would get it, \$800 of it would be his. Witness and Miner went and got the money and took it in a saddle horse up to a store at the incline. Of the \$800 half came from Joe Kelly and half from Miner.

He testified that he was in California and did not know whether the money was the proceeds of a robbery, but he found it in Folsom's hay yard. The \$800 which he had "found" in the hay yard and given him by his brother and Miner, was put into the store.

(Parts of the deposition was read in which witness had said he declined to state where the money came from because he would incriminate himself.)

Witness said he had no malice against his brother, and did not desire to get him into any trouble. He did not have any positive knowledge. His brother gave him a diagram of where he would find the money and he went and got it. The diagram was destroyed some seven years ago. His first

knowledge of the money was when he dug it up in Folsom's hay yard. He dug up the money and turned it over to his brother at the incline. It didn't take long to earn the money. Witness said he was taking no chances on incriminating himself, but didn't know whether it would or not. He thought he was taking desperate chances to be caught with that money on the saddle horse that day. He surmised where it came from. He had heard of a crime having been committed in Carson, while he was in California, and he guessed it would have been hard luck if he had been caught on the horse.

Attorney Chartz said it had been said that this case was connected with a railroad robbery and he wanted everything "spit out." This was brought out by witness' reluctance to state why he was afraid of being caught or incriminating himself.

Attorney Torreyson said that if the business was started on the proceeds of a crime the Court would not divide the spoils of thievery, and if it was stolen money the case should be thrown out of court.

Cross-examination resumed: When he thought he might incriminate himself he had in mind the money that was taken from the V. & T. robbery. Joe had told him that the money was found.

"Did you have any reason to believe that this money was that taken from the V. & T. during the hold-up of January 20, 1894?"

"My brother Joe told me the money was found."

Witness said that he believed his brother told him the truth. He was given the \$800 for past favors conferred on the two who gave it to him, and for favors he conferred on them afterwards. He knew that the V. & T. and had been held up and robbed of something over \$3000. In the hay yard he dug up just \$5 less than \$1500.

The sack had rotted. He put it in his hat and carried it up town, taking it to the incline the next day. The money had been put in a chamois sack. The money was in five-dollar pieces. He didn't know why Miner gave him \$800. He had heard that the V. & T.'s missing money was also in five-dollar pieces. He surmised that the money he took up to the incline was that taken from the pay car of the V. & T. It was buried in a stable with snow and manure over it and also 8 or 9 inches of dirt.

Witness said his share of the money put in the firm of J. Kelly & Co. was not stolen and he wanted his share of the property, although he supposed it was originally stolen from the V. & T. Company.

In answer to question from the Court witness said he had never informed the V. & T. Company about the money.

The diagram was a diagram of the shed showing half ground floor and half wood floor. A cross was marked sent it to him from the incline by an Indian. He got Miner to go with him and dig it up. People were in the yard at the time. Dug it up about dark. It was in the summer of 1894. Miner didn't know where the money was buried. Joe buried it there. Joe told him to bring the money up, so that the five-dollar pieces could be changed into twenty-dollar pieces in the store where Joe was working. He turned his share over to Joe also to be changed into other money.
